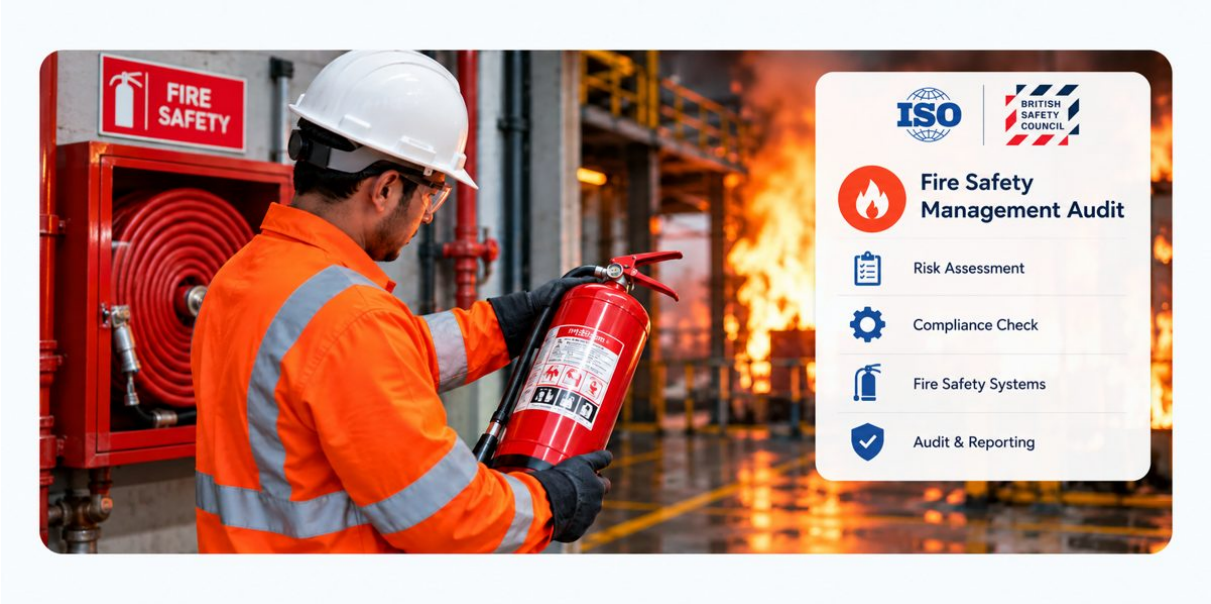
Fire Safety Management Audit

Current legislative requirements place the emphasis on the employer / landlord to effectively identify, control and mitigate the risk of fire within any premises in which they are deemed to be the res



Current legislative requirements place the emphasis on the employer / landlord to effectively identify, control and mitigate the risk of fire within any premises in which they are deemed to be the responsible person. It is therefore essential from a moral, legal and financial perspective that fire safety management arrangements are effectively implemented, reviewed and continually improved.

Frequently Asked Questions

Q. What is it?

An in-depth examination of an organization's fire safety management systems and associated arrangements.

Provides a comprehensive outcome with detailed recommendations against a contemporary best practice specification.

Developed in collaboration with fire safety experts and recognition of relevant standards.

Focuses on key aspects of managing fire safety within the workplace and offers a structured route toward continual improvement and best practice status.

The audit will enable an organization to improve fire safety management arrangements wherever necessary and also provide assurance on the suitability of current controls.

Q. Who is it for

Organization's within any sector (of any size) who:

- a. require a status assessment of their current fire safety management systems against best practice
- b. require a structured route toward best practice status.

Q. Why the audit is right for your organization

- Provides a comprehensive outcome with detailed recommendations against a contemporary best practice specification
- Developed in collaboration with fire safety experts and recognition of relevant standards
- External recognition of fire safety management to best practice standards
- Demonstration to stakeholders and other interested parties (including regulatory bodies) of commitment toward fire safety management
- Structured route toward continual improvement and best practice standards

Q. Prerequisites

None.

Q. How does it work?

- On site review of relevant documentation
- Interviews / discussions with relevant stakeholders
