CERTIFICATION

Pre-audit (gap analysis) services

Our pre-audit (gap analysis) consultancy services are specifically designed by highly experienced advisors to help you prepare for a health, safety or environmental management audit.

Our pre-audit (gap analysis) consultancy services are specifically designed by highly experienced advisors to help you prepare for a health, safety or environmental management audit.

What is it?

Prepare for your audit with a gap analysis of your existing Health, Safety and/or Environmental management system (and associated arrangements). Compare your system against relevant legislative requirements, recognized standards and best practice techniques. Understand what you need to do to improve your performance and how to achieve the highest standards.

- a. Best practice review of an organization's health and safety management system and associated arrangements against relevant areas of the five-star specification
- b. Bespoke gap analysis against legislative requirements, ISO 45001:2018 (or 18001) and/or organizations own OHSMS

Who is it for

Our pre-audit (gap analysis) services are ideal for any organization that is preparing to undertake a British Safety Council Five Star Audit, or ISO 14001:2015/OHSAS 18001 certification.

Pre-audit / Gap analysis is also relevant for any organizations within any sector (of any size) who:

- Require a status assessment of their current OHSMS against best practice and/or relevant legislative requirements and/or current standards
- Require a structured route toward best practice status

Why the audit is right for your organization

- Gain expert advice on how to achieve the highest standards.
- Identify what you do well.
- Address specific issues identified ahead of the actual audit process.
- Target resources effectively
- Expose your organization to the audit process as part of the full audit preparation.
- Demonstration to stakeholders and other interested parties (including regulatory bodies) of commitment toward health and safety.
- Structured route toward continual improvement and best practice standards.
- Preparation for full five star or certification audit.

Prerequisites

None.

The audit at a glance

Review of selected areas of the best practice specification and/or relevant legislation and/or current standards.

Can be bespoke for client requirements or include 7,13 or 21 areas of OHSMS.

How does it work?

- Prepared in discussion with you, to ensure that it meets your unique business needs
- On site review of relevant documentation
- Interviews / discussions with relevant stakeholders
- Operational sampling

What your organization will receive from the audit

- Summary report
- Detailed recommendations and action planning

Why choose us?

Our audit and consultancy services are internationally recognized and are the best way to ensure your wellbeing systems (and associated arrangements) are suitable for your business requirements, promote continual improvement and are effectively implemented.

As part of our own quality control processes, we ensure:

- Our audit and consultancy products are regularly reviewed to meet customer needs, expectations and sector best practice
- Consistently high standards of service are achieved through a robust quality assurance process including auditor standardization, training and performance monitoring
- Our technical specialists serve on strategic committees for occupational health, safety, environmental and wellbeing standards
- We have a unique internationally recognized best practice (Five Star) audit process
- Industry recognition from awards such as the prestigious Shield, Sword or Globe of Honour.
